

Roll Up is a presentation system which is simple for display and easily portable in light aluminium case. It has practical designs and it is easy to assemble by just one person. Only thing you need to do is to roll up the visual and slide up the stick .

Thanks to roll up you can present your products or services wherever your clients are. In the bank, metro stations, airports, hotels or other public areas. It could be used also during special occasions like parties, company presentations, fairs, etc.

Roll ups can be usually dispatched within 48 hours from the time of your order. In case of your interest we design roll ups which can suit your idea and your business and products.
